

RNA Club 2014

International Meeting on RNA Biology

September 19, 2014, Prague, Czech Republic

Come to the heart of Europe for a day of exciting talks!

Science and Socializing

Pro- & Eu-karyotic topics
RNA structure, dynamics,
RNA-protein interactions,
RNA stability, transcription
and gene expression
regulation

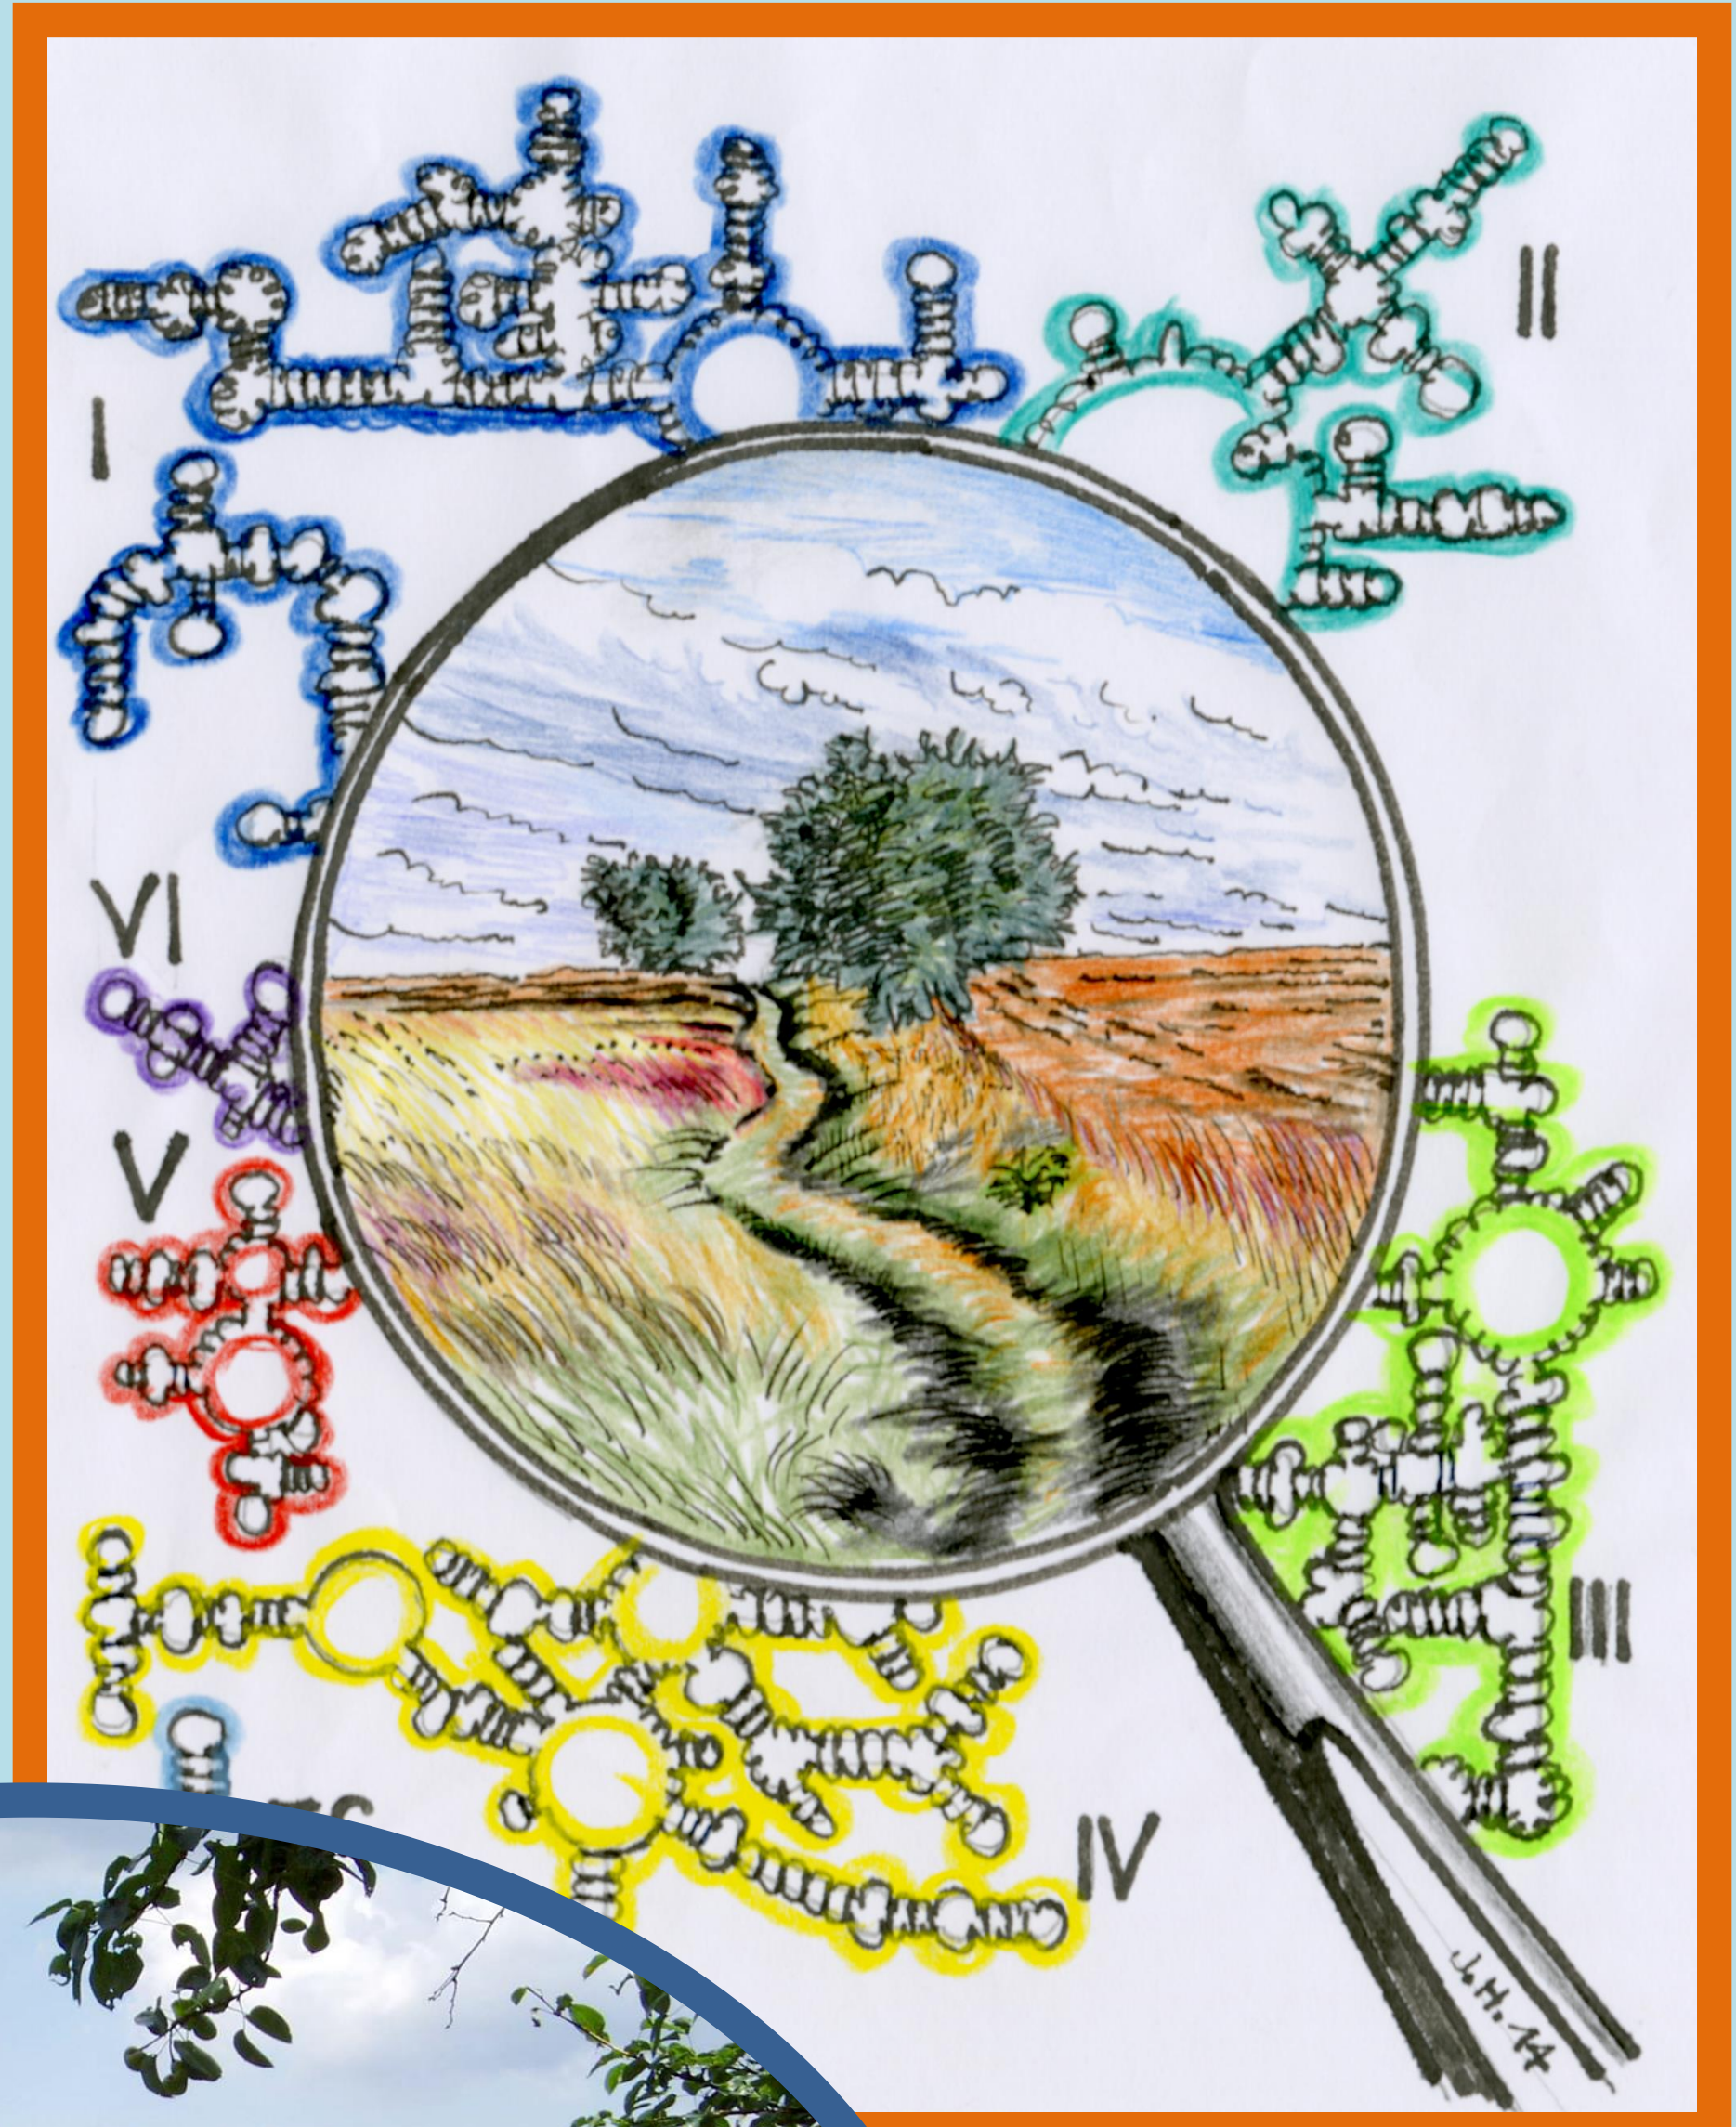

Keynote speakers:

Ciaran Condon, France

RNA maturation and degradation
pathways principally in bacteria

Xavier Darzacq, France

Spatial organization of chromatin and
RNA polymerase II in the nucleus
